3. The interim actions of approval for the Board by the Secretary for utilization of TALENT material were noted, including approval for ACSI to consult with [REDACTED] on 15 January 1957 and for OSI/CIA to consult with Drs. [REDACTED] on 14 January 1957 in connection with the [REDACTED] problem.

4. Agenda item 4, Review of Utilization Criteria for TALENT ELINT, was deferred until the next Utilization Advisory Board meeting, at the request of the Air Force member.

5. The Board approved the proposal for the DDP/CIA to prepare reports based on TALENT material, but attributed to other sources, for regular dissemination outside TALENT Control Channels so that unique and significant TALENT information will be available to appropriate analysts within the intelligence community. It was emphasized that requests for such DDP/CIA support should be submitted only in cases where the TALENT information is highly significant from an intelligence point of view. Such requests should be addressed to the Secretary of the Utilization Advisory Board for forwarding to the TALENT Control Officer, DDP/CIA.

b. It was suggested that the select group of consultants to be convened for the [REDACTED] problem might be granted TALENT clearances, thereby eliminating the need for a cover story. The Chairman asked that each member discuss the proposal with appropriate persons in his Agency and report their views to the Board.

25X1C

7. The Navy member requested approval for FICELM to dice in TALENT material on photographic prints on six selected areas of the Middle East for planning and operational purposes. The Board disapproved this request, since the dicing in is easily recognizable. However, the Board approved an alternate suggestion of blowing up existing TALENT photography after removing all TALENT labels for the purposes stated above.

8. There being no further business the Board adjourned at 1105 hours.
